## **AUCP Language Contract A Commitment to Speak French**

I understand that a primary goal of my experience at the American University Center of Provence is focused, in-depth involvement with the language and culture of the local environment.

In addition to my individual housing placement, regular community service, and other program requirements aimed at cultural integration, I recognize that a commitment to speaking French systematically in all curricular and extra-curricular circumstances - even with fellow AUCP students or other English-speakers - is essential to my personal linguistic and cultural goals as well as those of my fellow students.

**During my experience at the AUCP I will communicate in French at all times.**

I understand that observable efforts to speak French regularly (or their lack) may be taken into consideration in the grading of required experiential learning aspects of the core course French 309 or French 310. I further understand that any violation of the above pledge will be considered conduct detrimental to the AUCP student group and is grounds for dismissal from the program.
