## A Taste of France!

The United Nations recently voted French food as part of the “intangible cultural heritage of humanity”. Singled out by the U.N. Educational, Scientific and Cultural Organization (UNESCO) among 47 nominations from 29 countries, French cuisine joined the ranks of 212 traditions worth preserving for the good of the human race.

“The meal is a profound part of French people’s identity”, according to Jean-Robert Pitte, President of the Paris-Sorbonne University. “We have a certain form of gastronomy, with the marriage of food and wine, the succession of dishes, the way of setting the table, of talking about it, that are specifically French.”

Offering homestays in carefully selected French families, AUCP’s program **Summer in Provence / French Language and the Art of Living** opens doors to the rituals and traditions of contemporary France. This six-week intensive French program, open to all levels, includes an emphasis on intercultural communication and authentic encounters with the French, for a comprehensive approach to language learning and use. Enjoy your summer *living with and like the French!*

Set in Aix-en-Provence, one of the most coveted places in the world for a summer stay, the program also includes local excursions, four full-day course-related fieldtrips, and **optional cooking & wine tasting courses**.

AUCP French Cookbook

### The AUCP on-line French Cookbook

Cooking and sharing meals in France create the bonds that last a lifetime. All AUCP students find themselves immersed in French culture, and the AUCP French Cookbook is but one happy result. Choosing their favourite dishes from their host families, students compiled this memorable collection of delicious easy-to-make recipes.

[Click here](#) to get a taste of authentic French cuisine (now “cultural heritage of humanity”) as experienced by AUCP students!
