# MINGLE MORE!

## Two New Alumni Groups on AUCP Facebook

The AUCP has created **two new alumni groups on Facebook**, [one for Aix](#), and [one for Marseille](#). It is our hope that these two new groups will help former program participants to mingle more and to share, not only with their classmates, but with AUCP alumni from different years and semesters. Give us a visit, let us know if you like it, and share your thoughts, photos, videos and links. Click above if you are already convinced. Otherwise, read on for five more good reasons to join us!

## 5 MORE GOOD REASONS for joining AUCP on Facebook

### Reason 1

**Re-connect** with former classmates and meet other AUCP alumni

Those who can relate to your love of French, France, Aix, Marseille...

### Reason 2

**Share** your challenges, accomplishments and advice

It feels good to reach out - when you're not exactly sure of where you're going, when you've done something you're proud of, or when you think you can lend a helping hand...

### Reason 3

**Benefit** from a network of exceptional people for international jobs and study opportunities

Get inspired by what others have done after their AUCP experience. See how they've put to use their linguistic and cultural fluency.

### Reason 4

**Give in** to a little nostalgia

*La nostalgie n'est plus ce qu'elle était!* Simone Signoret could be right, but sometimes it feels real good to look back and say *C'est moi qui l'ai fait!*

### Reason 5

**Support us** by directing potential students our way!

The AUCP exists to provide an exceptional study abroad experience for students like you. You are now and forever our ambassadors. Help us spread the word!
